

REACH Compliance Declaration 2022

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for Companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles.

Under the structure of the REACH Regulation, Cristal Laser is a manufacturer and supplier of “articles” to EU. We do not manufacture or supply “substances” or “preparations” and our articles do not involve the “intentional release of substances”. Accordingly, we foresee no registration or pre-registration requirement for the products we supply to you.

Cristal Laser Company synthesizes mineral crystals with different substances and buys these substances from European Distributors / Importers. Suppliers are responsible for registrations of substances. According to the definitions in REACH, the role of Cristal Laser Company is “Producer of Articles”. Cristal Laser Company has an obligation of information on the substances contained in these articles.

The customers are encouraged to visit the following site to get the most up to date information on current list of SVHCs under REACH:

http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp

- Cristal Laser Company do not use any substances from the list of “Substances of Very High Concern for Authorisation”
- Cristal Laser products (articles) do not contain Substances of Very High Concern (SVHC) above the threshold value declared as per ECHA till 15 – June - 2015 with 163 SVHC

Cristal Laser Company defines “**REACH Compliant**”, to mean that banned substances are not intentionally added during the manufacturing process and have upper concentrations within REACH acceptable limits.

This status is based on Cristal Laser Company’s understanding of REACH and Cristal Laser Company’s knowledge of the materials that go into its products as of the date of June 1st 2007 disclosure of REACH compliance.

Cristal Laser Company
